

Remark

The text of The Little Prince is accompanied by illustrations. As we cannot not show them all to you while listening, we will introduce you in advance the drawings which appear in chapters 1 and 2. For the other drawings, you will have to use your imagination.

You will hear the text of The Little Prince in nine blocks of approximately 10 minutes. Each block will be accompanied by four multiple choice questions on the text that you have just heard, as well as open-ended questions that concern your interpretation of the text. If some of them inspire you, feel free to give an elaborate answer. If not, respond briefly and remember that there are no right and wrong answers to these questions general - it's your feelings that interests us.

At the end of the book, you will hear the sentences in French for about 5 minutes and distorted sentences that don't make sense. You will not have any task to perform for this part, but please pay attention.

Please keep your eyes closed while listening.
